TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript (ES6+), React 18, Next.js 14, Node.js, Python, HTML/CSS, Java, C#

Frontend Architecture: Redux Toolkit, custom hooks, state management design, REST API integration, Tailwind CSS, responsive and accessible design, Chart.js, dnd-kit, Vite

Tools & Practices: Git/GitHub, PR review and branching workflows, Yarn, ESLint, Prettier, Figma, Claude API / AI integration, Notion

Learning Platforms: LMS architecture across student, instructor, and admin portals; content tracking and analytics-ready data structures; WCAG accessibility standards

Languages: English, Spanish

EXPERIENCE

Frontend Lead | Fuel the Future

Aug 2025 - Present | Hybrid, Plano, TX

- Promoted from intern to Frontend Developer to Frontend Lead in Assistiv, an AI powered learning management platform within 7 months; own frontend architecture, state management design, and custom hook patterns across student, instructor, enterprise, and admin portals (React 18, Next.js 14, TypeScript, Redux Toolkit)
- Led the migration of the AssistivDocs rich text editor to TipTap end to end: scoped the effort, secured executive sign off, and coordinated delivery with backend engineering and design
- Implemented responsive design across the platform, ensuring consistent layouts and usability on desktop, tablet, and mobile
- Serve as the frontend quality gate for the team: review UI/UX and frontend code on every pull request from interns and developers before merging
- Manage and mentor a developer transitioning to full stack work
- Authored the team's intern onboarding documentation, branching conventions, and data contract workflows with backend, the team's primary internal learning resource for new hires

Web Design Intern | Thaddeus Resource Center

Feb 2025 - Feb 2026 | Remote

- Designed and iterated on web interfaces in Figma and Miro, applying responsive design and WCAG accessibility standards across nonprofit program pages

PROJECTS

Echoes of the Estate | React, Node.js, Claude API

Oct 2025

- Built an AI ghost story game for BUILD Halloween Hacks 2025 with dynamically generated branching narrative and bilingual support in English and Spanish

Ikigai Pet, Children's Health Hackathon | C#, Unity

Jul 2021

- 3rd place winner; AR health awareness game designed and built in a team of two

EDUCATION

B.S. Computer Science | Oregon State University (eCampus) | GPA: 3.5 | Expected 2028

Academy of Engineering | NAF | Dallas, TX | 2021

CERTIFICATIONS

CodePath Intro to Web Development | Credential ID 286370 | Issued Apr 2025
